

INTRODUCTION

The majority of this interview was taken word for word from the interview with Bob Koprivica. The recorded tape was too poor to hear. After completion of this paper, Mr. Koprivica reviewed this document and corrected any mistakes. Interviewer, Donielle Biers asked questions, which are illustrated in bold characters and Mr. Koprivica's answer to those question are illustrated without bold character. The interviewer remembered Mr. Koprivica saying that he would have donated part of his park to build a new YMCA, free to the YMCA. He also stated that he would have donated land for the parking lot. Along with those two offers, he would have donated \$80,000.00 worth of pictures to be kept in the building for public viewing. He also would have built a planetarium at the top with the best telescope available. After spending 2 ½ hours with Mr. Koprivica, he got tired and we ended the interview. Recently I heard that the YMCA would be built in a different location. I do not know the reason.
